

Product Designer

Soort functie: Freelancer **Locatie:** Fully Remote
Duur: long term **Referentie:** 202209463

Omschrijving:

The Role

As a member of the product team, you will be closely working with the business stakeholders and IT teams to create user-centered, elegant, intuitive Data Visualization products in QlikSense.

What you'll do:

- Working with a Product Manager on discovery and vision, translating research insights into compelling data visualizations
- Use interviews, data, feedback and other information-gathering methods to gain a deeper understanding of user workflows and pain points
- Leading validation and test sessions with users and stakeholders and delivering solutions
- Strengthening the user experience design culture

Vereisten:

About you

Requirements

- This role generally Requires 4-6 Years Work Experience
- 3+ years of experience as a Product or UI/UX Designer
- Proven track record of successful product launches that have driven meaningful impact to the business
- Empathy for stepping into users' shoes to identify potential problems and act on opportunities to deliver value to users
- Strong collaboration skills across disciplines to drive change into products and design systems in a continuous, fast-paced delivery environment
- Strong written, verbal communication and presentation skills to effectively collaborate with management, developers, support and end-users
- Practical experience of communicating ideas through design artifacts like user flows, interactive prototypes, wireframes, and high-fidelity user interface design solutions
- Familiarity with design & whiteboarding tools e.g., Figma, Mural
- Experience working in an agile environment

Nice to have

- Experience designing data visualizations in QlikSense a plus
- Experience in designing for Health Tech a plus

Non-Technical profile requirements:

- Some flexibility in working hours is required
- Must be able to work on multiple simultaneous tasks with limited supervision;
- Quick learner, motivated self-starter
- Excellent customer service, interpersonal, communication and team collaboration skills
- Able to follow change management for internal guidelines.
- Language proficiencies : English and Dutch spoken and written
